Safety and Security

Delta Air Lines has more than 60 years of experience putting safety and security first. This same spirit holds true at Delta AirElite, the only business jet charter, aircraft management, and private jet membership company owned by a major U.S. airline. We've owned and operated a fleet of private jet aircraft for over 20 years—experience and expertise that provide piece of mind few can match.

Prior to any flight, the plane and crew must pass a preflight ARG/US TripCHEQ—a detailed and comprehensive safety report, tracking pilot certifications, type ratings, experience, training, and insurance and operator certificates—to ensure that our strict standards are met. Additionally, our crew-member experience surpasses industry standards and regulatory requirements.

Customer Satisfaction

Our dedication to delivering an outstanding experience on each and every flight has been recognized by our customers through strong loyalty and awards such as *Robb Report's* "Best of the Best" and *Executive Travel Magazine's* "Best Private Jet Service."

Awards

ARG/US, an independent aviation safety audit firm, has awarded Delta AirElite with its Platinum rating every year since 2001. As such, we are the longest continuous holder of the ARG/US Platinum rating in the world.

Leading Edge Award

"Our readers voted Delta AirElite Best Private Jet Service over all of your competitors from around the world."

- Janet Libert, Editor-in-Chief,
Executive Travel Magazine

Voted *Robb Report's* Best of the Best

2004, 2005, 2006, and 2007.
