

Fleet Management

THE EQUIVALENT OF PUTTING YOUR PLANE ON AUTOPILOT.

Fleet Management

AT 41,000 FEET, YOU CAN DISTANCE YOURSELF FROM EVERYTHING.
INCLUDING THE DETAILS.

With Delta AirElite's Fleet Management programs, we can help you keep the exhilaration of ownership alive by putting your investment to work for you. Our comprehensive programs simplify your ownership experience. Thanks to our worldwide presence and popular Fleet Membership program, we deliver revenue and savings to help offset ownership costs. Enjoy the returns, but more important, allow us to simplify your business and your life.

Charter Management

Your schedule comes first. With your existing flight department in place, all charters will originate from your base location, ensuring that your jet is there when you need it and, just as important, earning its keep when you don't need it. And since Delta AirElite has a strong, established base of nationwide demand, we can generate charter revenue when others are unable.

Let our vast resources work for you. You'll have exclusive access to savings programs with discounts on fuel, insurance, crew training, travel, and accommodations, as well as exclusive and convenient airline travel for crewmembers on charter-related trips. We offer the flexibility to create a custom program.

Turnkey Management

Leave everything to us. Delta AirElite Turnkey Management is tailored to be as specific or as comprehensive as your needs demand. Free yourself from the demands of ownership and let us:

- Work with your existing crewmembers, or recruit and select a dedicated team, using our extensive experience and resources
- Oversee all facets of operations, maintenance, regulatory compliance, and personnel management.
- Provide complete travel coordination for both owner and charter-related flights, as well as detailed accounting and billing functions generating a concise monthly statement

The Delta AirElite Advantage.

Since 1984, Delta AirElite has been operating and managing business jets while upholding award-winning standards of service, safety, and security. So whether you're a corporate or individual owner, you can put our experience, efficiencies, and global resources to work for you.
